## Photo Disc Instructions for Viewing on a Television with a DVD player

These instructions are for the DVD player. Turn this paper over for the instructions for viewing high resolution images on your computer.

When used as a video DVD, you see a slide show accompanied by music performed by Jeffrey Van Devender of JavaMusik .

② **Category Menu page 1.**

Background: Viewer's Choice recipient "Sugar & Spice" by Renae Haddadin

- When started, the DVD player will present the title screen ①. Select the show you wish to view with your DVD player remote. Photos are available with captions or without captions. The example quilt ⑤ is shown with captions.

- There are twelve categories. From the first quilt menu ②, select from one of the first six categories, or select the "More Categories" option.

- From the "More Quilts" menu ③, select from the second group.

③ **Category Menu page 2.**

- In addition to quilt and garment photos, you can also view photos from the Fashion Show, Banquet, and other show candid photos from menu ④.

In all slide shows, the DVD player remote can be used to pause, backup, or skip ahead. The DVD player "main menu" or "title" button will return you to the title screen.

④ **Fashion show and Candid Menu.**

## Photo Disc Instructions for Viewing High Resolution Images on your Computer

1. From "My Computer" window of Microsoft Windows, or the computer desktop of Apple Macintosh, locate the DVD icon, and open "MQX\_2007".

Some computers will open the DVD player software when you insert the disc or open this disc with a double-click. If so, exit the DVD player, and use RIGHT-CLICK on the "MQX\_2007" entry of your "My Computer", and select "Open".

2. To view the photos open (double-click) the "START HERE.html" file from inside the folder called "MQX 2007 DVD-ROM Contents".

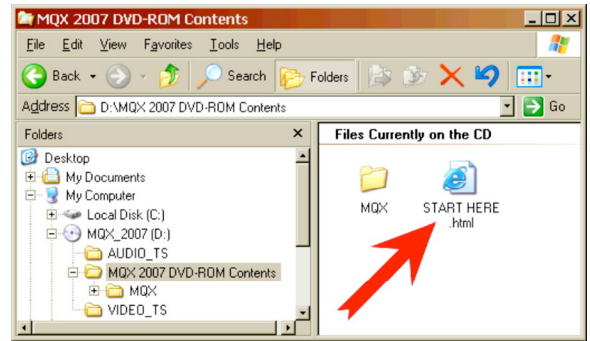

The numbered areas of example image "A" indicate the special features of the DVD's high resolution image browser:

- ① This menu that takes you to other views. From here you can choose the ordering of the images to view, or go back to the top page.
- ② is a thumbnail image of each photo, click on one to jump to that specific image.
- ③ The title, entrant, and awards this entry received at MQX 2007.
- ④ The main photo. If you click on this image, another window will open with the high-resolution image for extreme close-up examination.

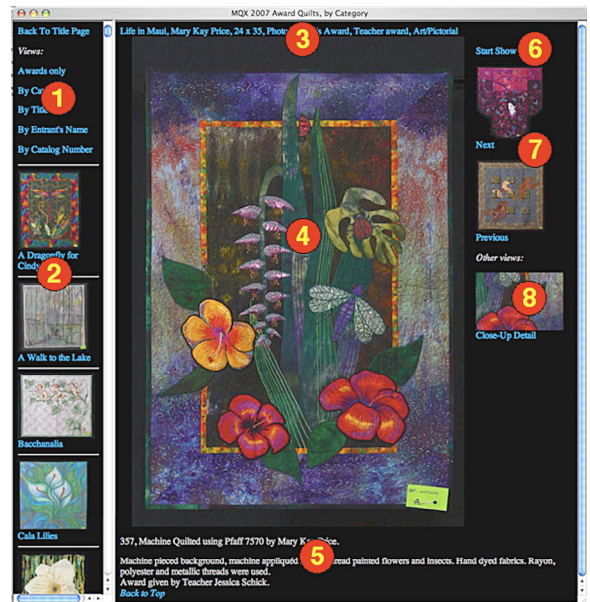

When using Microsoft Windows Explorer®, the extreme close-up button will appear if you allow the mouse to hover over the image for a moment. This button toggles between a full view of the photo, and the extreme close-up view. See example image "B".

- ⑤ More detailed information and description of the entry.
- ⑥ The link "start show" will start a slide show. In this mode, the next photo is opened automatically every few seconds. Clicking on any link will stop the slide show.
- ⑦ The next and previous photos in the slide show. These usually appear to the right of the main photo (as shown), but if your browser window is too narrow, they will appear below the main photo, before the catalog number.
- ⑧ List of alternate views, such as close-up. As with the "next" and "previous" links, these will be positioned below the main image if the window is too narrow to fit them to the right of the image.

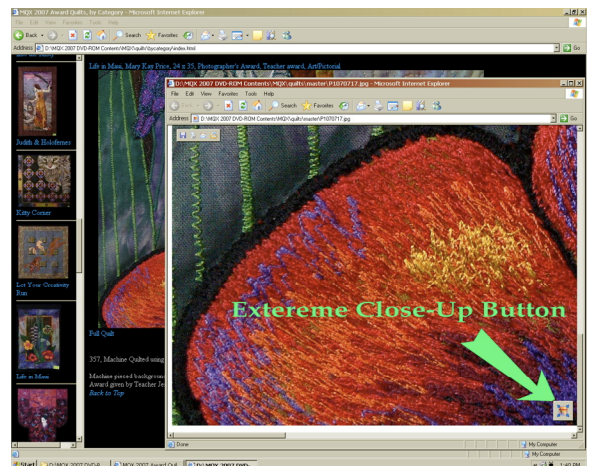

The example image used here is "Life In Maui", by Mary Kay Price and recipient of the MQX 2007 Photographer's Award
